Dear GEPS Families,

Thank you for your amazing support during Semester 1 (terms 1 and 2). As you can see from your child's report, we have had a fantastic semester here at GEPS. If you would like to discuss your child's report further, please reach out to arrange a meeting or phone call. Our staff are always happy to chat.

I want to congratulate all of our students for their hard work over the past two terms. Their enthusiasm and love of learning have shone through in classrooms throughout the school. As a staff, we are incredibly proud of their progress and the positive attitudes they have shown each day.

Please take the time to read your child's report and share their success. Student reports are important for families as they provide essential information and insights into a child's education and development. Here's why they matter:

1. **Academic Performance:** Reports give a clear picture of a child's progress in different subjects, indicating where they excel and where they might need extra support.
2. **Behaviour and Attitude:** They include comments on a child's behaviour, attitude towards learning, and interaction with peers and teachers, offering a holistic view of their school experience.
3. **Communication Tool:** Reports facilitate open communication between parents and teachers, ensuring that parents are informed about their child's achievements and future focus areas.
4. **Support and Intervention:** Identifying areas where a child may be having difficulties allows families to provide additional support at home to help their child improve and feel more confident.
5. **Encouragement and Motivation:** Positive feedback and recognition of hard work can boost a child's confidence and motivation, encouraging them to continue putting in effort.
6. **Setting Goals:** They help families and students set realistic and achievable goals for future academic periods, fostering a sense of direction and purpose.
7. **Involvement in Education:** Reports keep families involved in their child's education, promoting a collaborative approach to learning and development.
8. **Tracking Progress Over Time:** They provide a record of a child's academic journey, allowing families to track progress and development over the years.

Electronic Reports

Next term, we will be trialling electronic reports accessible via our SENTRAL parent portal. This change aims to make access easier for families and reduce the amount of printing required. Please ensure you have the SENTRAL parent portal app downloaded for full access. If you encounter any difficulties or need the unique student code, please contact our office at 49549551, and our team will be happy to assist you. If you prefer a printed report, we will gladly provide one upon request.

I am already looking forward to the next semester of incredible student learning and engagement here at GEPS.

Thank you,

Tim Lewis
